Objective

I am a dedicated full-stack developer with a passion for creating innovative web solutions. My expertise spans across frontend and backend technologies, with a keen eye for design and user experience.

Tech Specs

- **Frontend Languages and Frontend Frameworks:**
 - HTML5 + CSS3 + Bootstrap – Having an experience of 2 years.
 - React.js — Having 4+ years' experience.
 - Node.js — Having an experience of 2+ years.
 - JavaScript — Having 4+ years of experience.
 - Vue JS – Having an experience of 2 year.
 - Vitest — Having an experience of 1 year.
 - Three.js — Having an experience of 6 Month.
 - VB.net — Having an experience of 6 Month.
 - .net Core — Having an experience of 6 Month.
- **Database:** SQL Server, MySQL, MongoDB, Firebase
- **Version Controlling:** Git (GitHub).
- **Project Management Tools:** Jira and Azure Board
- **Others:** Web APIs, Azure Data Factory etc.

Experience

Programmers.io | Software Engineer

Dec 2022 - Present

Working as a software engineer specializing in React.js technology

- Developing and maintaining web applications using modern React ecosystem
- Collaborating with cross-functional teams to deliver high-quality software solutions
- Implementing best practices in frontend development and code optimization

Web Ashlar | MERN stack Developer

Sep 2021 - Oct 2022

Worked as a MERN stack developer building full-stack web applications

- Developed frontend interfaces using React.js and backend APIs with Node.js
- Implemented database solutions using MongoDB and integrated various services
- Collaborated with design and product teams to deliver user-centric solutions

Melzo | Full-stack Developer**Dec 2020 - Aug 2021**

Developed full-stack web applications using modern JavaScript frameworks

- Built responsive user interfaces and robust backend systems
- Worked on database design and API development
- Participated in code reviews and maintained high code quality standards

GatiSofttech | C# Developer**May 2019 - Dec 2020**

Developed desktop and web applications using C# and .NET framework

- Built scalable software solutions for various business requirements
- Worked with databases and implemented efficient data management systems
- Gained experience in software development, lifecycle and agile methodologies

Education

Kamani Science & Prataprai Arts College-Amreli**| Bachelor of Computer Applications (B.C.A)****2019**

I specialized in Computer Science with relevant coursework in Software Engineering, Database Management, and Web Development. Completed academic projects including developing a full-stack web app for the final year project.
